## **2016 FOX Spring Global Investment Forum™ to Bring Together Leading Minds in Family Investment**

*Forum for Family Investment Principals Only*

**Chicago, March 15, 2016** – Family Office Exchange (FOX), a global membership organization of enterprise families and their key advisors, will hold the **2016 FOX Spring Global Investment Forum**, April 6 at the Harvard Club in New York City—its first of two family investment-focused Forums for the year.

The FOX Spring Global Investment Forum is a different kind of investment conference—it is by and for owners of investment capital and their CIOs. The Forum is designed from the FOX member’s perspective to meet the interests and needs of the family investment decision-makers and asset allocators who will be in attendance. It will feature a unique lineup of expert speakers as well as ample opportunity for networking and peer exchange with top minds in the family office and investment world.

“This Forum is a place for family investment leaders to come together in a welcoming, secure, non-commercial environment for a full day of networking, peer exchange and world-class educational sessions,” said FOX President Alexandre Monnier. “This is a one-of-a-kind investment conference that is just what FOX members demand.”

Highlights of the program include:

- Acclaimed architect, designer, thought leader, and author **William McDonough** will shed light on business models that allow business professionals to do more with less—and note the impact this philosophy has on bottom line profits and the investment implications of the next industrial revolution
- Bloomberg Television anchor and editor-at-large **Erik Schatzker** will share his unprecedented insight into the companies and stories moving the markets, and identify **key macro-themes** that are actionable and relevant for multi-generational ultra-wealthy families
- **A panel of families and top advisors** will talk about the challenge of finding alpha in the market today and share insights on how they are addressing the challenge
- **Facilitated Peer Dialogue** with attendees’ closest peer groups
